Spectrum Folding Doors

Instructions for Double or Single Doors
Mount Spectrum lock on either side of the door opening and at any height desired.

Single Door Lock Installation

Step 1
Locate Door Lock jamb casing. Using holes A, mount to door jamb with two screws provided. See figure 1.

Step 2
Select hook according to folding door styles as follows: Long hook door styles: Encore, Luxtra, Woodshire, Oakmont, and Panache. Short hook door styles: Horizon, Via, Contempra. Figure 2.
Spectrum Folding Doors

**Step 3**
Attach spring onto the hook as shown in step 3. Insert spring and hook assembly into center hole on side of jamb casing. See figure 3.

![Figure 3](image)

**Step 4**
Mount cover of lock casing and screw into place with two screws provided. Attach knob to either side of casing. See figure 4.

![Figure 4](image)
**Spectrum Folding Doors**

**Step 5**
Pull door closed and with hook extended, place latch pin in position. With a small nail, mark location of screw holes into lead edge of door. See figure 5.

![Fig. 5](image)

**Step 6**
Remove latch pin. Using a 1/4” drill bit, slowly drill straight through door. See figure 6.

![Fig. 6](image)

**Step 7**
From opposite side of the door, insert anchor piece. Reposition latch and attach with two screws provided. Tighten gently. See figure 7.
