

TuffSpike Anchor System

Before You Start

Check with your Utility Company BEFORE installing this product to locate any underground utilities.

20" TuffSpike Anchor System is designed for LIGHT DUTY USE. 30" TuffSpike Anchor System is designed for MEDIUM DUTY USE. Check equipment and other product specifications or warranties before use with TuffSpik™ Anchor System.

- 1 - Locate installation position and check for proper alignment.
- 2 - With clear plastic cap in place on the head of the spike, strike the cap using a sledge hammer.
- 3 - After a few strokes, check vertical alignment with a level.
- 4 - Continue striking until the base of the round collar is flush with the ground.
- 5 - Remove clear plastic cap. TuffSpike Anchor System is now ready to complete your project.
- 6 - Secure your outdoor item with line, rope, chain, cable, or tie-downs as recommended for your specific use.
